THE KEYSTONE
3 bedrooms, 2 baths, 1390 sqft

Featured Model

At 1390 square feet, the smartly-designed Keystone is proof that a mid-size home can provide all you need. Under the vaulted ceilings, the spacious living room and dining room open out from the adjoining kitchen, which provides ample counter space and cabinetry. The private master suite is expansive, featuring a dual vanity bathroom and two large closets. The other two sizeable bedrooms—one of which may be used as an optional den—share a full bathroom and complete this extremely well-planned home
